

# **Challenge 1 – Steve's Car Showroom**

**Steve runs a top-end car showroom but his data analyst has just quit and left him without his crucial insights. Can you analyse the following data to provide him with all the answers he requires?**

# Tables

**sales**

sale_id	car_id	salesman_id	purchase_date

-- 7. What is the total revenue generated by the sales of hatchback cars?

```
select sales.car_id, style, sum(cost_$) as revenue
from cars
join sales using(car_id)
where style='Hatchback'
group by 1,2;
```

The screenshot shows a database interface with a 'Result Grid' tab. The grid contains one row of data. The columns are labeled 'car\_id', 'style', and 'revenue'. The row shows '2' for car\_id, 'Hatchback' for style, and '100000' for revenue. There is a 'Filter Rows:' input field to the right of the grid.

|   | car_id | style     | revenue |
|---|--------|-----------|---------|
| ▶ | 2      | Hatchback | 100000  |

-- 8. What is the total revenue generated by the sales of SUV cars in the year 2022?

- ```
select style, sum(cost_$) as revenue, year(purchase_date) as year_no
from cars
join sales using(car_id)
where style = 'SUV' and year(purchase_date) = 2022
group by 1,3;
```

Result Grid				Filter Rows:
	style	revenue	year_no	
▶	SUV	150000	2022	

-- 9. What is the name and city of the salesperson who sold the most number of cars in the year 2023?

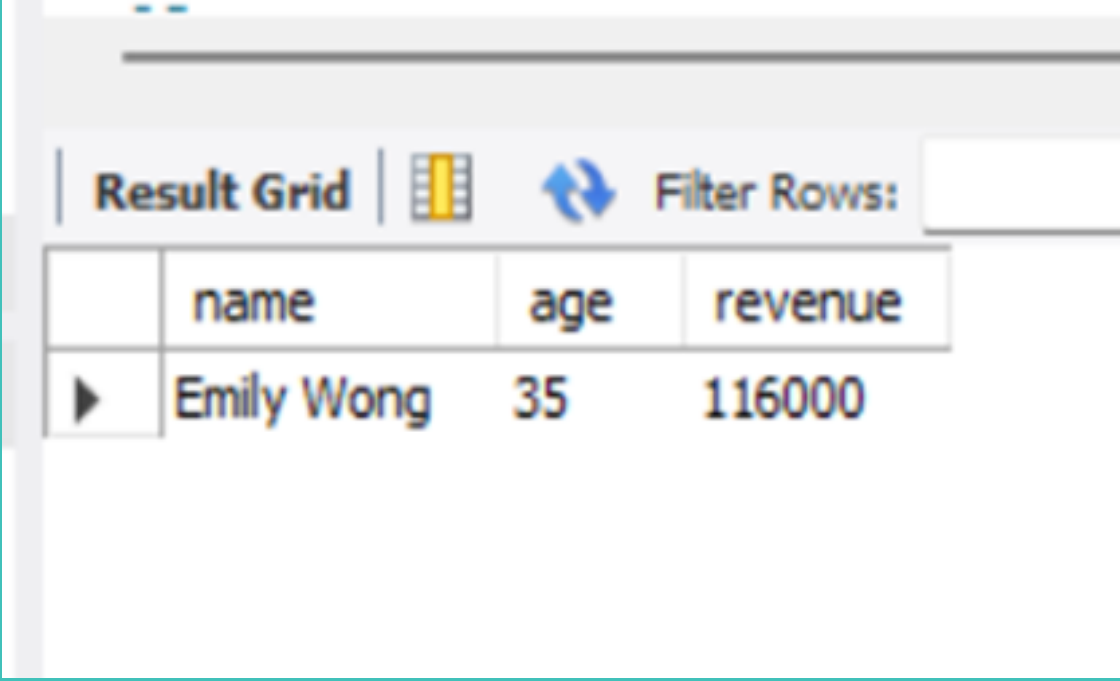

```
select year(purchase_date) as year_no,name,city, count(sale_id) as no_of_cars_sold
from sales
join salespersons
using(salesman_id)
where year(purchase_date) = 2023
group by 1,2,3
order by 4 desc
limit 1;
```

Result Grid   Filter Rows:  Export

	year_no	name	city	no_of_cars_sold
▶	2023	Tom Lee	Seattle	2

-- 10. What is the name and age of the salesperson who generated the highest revenue in the year 2022?

```
select salespersons.name,age, sum(cost_$) as revenue
from cars
join sales using(car_id)
join salespersons using(salesman_id)
where year(purchase_date) = 2022
group by 1,2
order by 3 desc
limit 1
```

The screenshot shows a database interface with a 'Result Grid' tab. The grid displays the results of the SQL query, showing the name, age, and revenue of the salesperson who generated the highest revenue in 2022. The result is Emily Wong, aged 35, with a revenue of 116,000.

	name	age	revenue
▶	Emily Wong	35	116000
